

Tri-Tip ReHeating

1. Remove Tri-Tip from refrigerator two hours before serving to bring to room temperature.
2. Place whole Tri-Tip in 300 degree oven for 20-30 minutes before serving.
3. Slice Tri-Tip into $\frac{1}{4}$ " thick slices and place on lipped serving platter.
4. Keep beef warm by placing on Electric Serving Heater with platter of beef covered with aluminum foil.
5. Re-heat individual servings with microwave if necessary.
